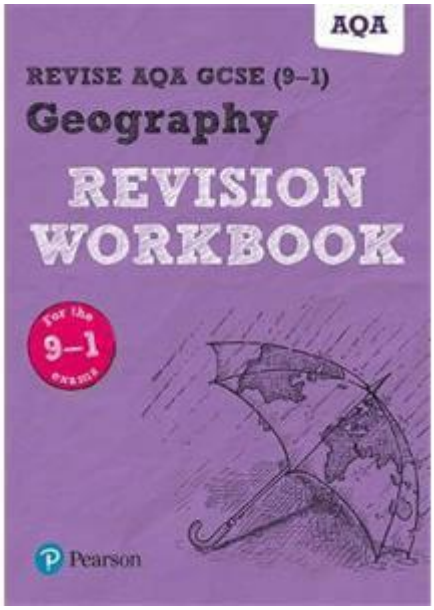
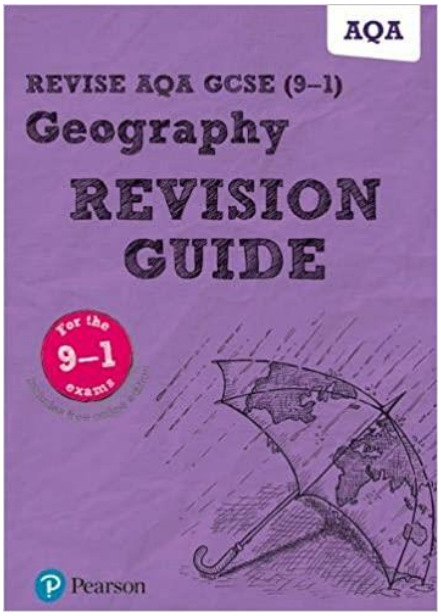
Revision Guides





These two books are a compulsory accompaniment to the delivery of the THS Geography GCSE.

If you don't yet have one contact the school to see if we have any available for sale or order your own copy from a local bookshop or online.

You may be set work from a particular section, or you can use the book to test your knowledge on the subject.

Test with the Revision Workbook:

Choose whole units, or choose random pages and choose how well you know the content.

Check with the Revision Guide:

Look up the section you have worked on and check/improve your answer. Look for specific facts or evidence to back up your understanding.
