

## Revision Guide

We would like all students to have this book. They form an integral component of our preparation for GCSE's. We set sections as homework tasks and ensure that students are covering past work on a regular basis to help with the retrieval and embedding of the knowledge.

We offer them for £6.50 per book, you can buy them elsewhere, but on Amazon they are £10.99 each. We make no money from this and pass the saving straight onto you, however you are obviously free to choose a different source.

If you do not purchase one, we will loan you one for the duration of your GCSE. If you do not return it to us then we will charge you for the book.
